“Walking means to me, to get into nature.
That’s why I ever walk slow, I almost never run...
I walk to see, to feel, with all my senses.
my soul goes into the trees,
the meadows, the flowers.
To me high mountains are a feeling.”

MAIN ACTIVE INGREDIENTS

- **Guérande Salt:** for many centuries, the site of GUÉRANDE, ideally located between land and sea on the Atlantic coast, had its activity associated with that of salt – genuine "white gold". The crystallization of the salt and its mineral content is determined by the harvesting method.
- **Flower petals (cornflower, calendula and elder flower),** with stimulating colors and complementary properties to fruit and flower extracts.

Wellness body rituals

How the treatment works: at first you will get a gentle and effective body peeling, afterwards you lie comfortably in the Soft-Pack system during the treatment and can relax in an almost weightless state. The body is wrapped in a special film. This has the advantage that you don't come into contact with water while the applied products work their magic on the body. Due to the gentle water pressure the film caresses your body so that the active ingredients can absorb perfectly into the skin (occlusion effect: the skin's ability to absorb active ingredients is increased ten-fold by this method). A comfortable massage will end the treatment

Sweet Chocolate

Detoxing and energizing chocolate treatment

The intense aroma of chocolate will envelope you. A sweet peeling detoxes the skin. Then your body will be sprinkled with a sweet warm oil and our professional will massage you and dissolve the tension in your muscles. The products that we use have a hydrating action for the skin and an anti-stressing action for the mind. This treatment activates the production of endorphin and serotonin and makes you feel happy.
